DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The Prior Art does not fairly teach or suggest the claimed sensor testing system, having the entire combination of a pressure rail having a top surface and a bottom surface and at least one pressure inlet to a pressure channel located within the pressure rail; a plurality of patch depressions formed into a plurality of sealing surfaces on the top surface of the pressure rail upon which at least one patch among a plurality of patches is located; a plurality of antenna blocks disposed upon the pressure rail, wherein each antenna block thereof includes at least two antennas and is respectively located on the pressure rail in order to provide wireless data indicative of pressure and temperature conditions associated with each patch among the plurality of patches.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record on the attached PTO Form 892 and not relied upon is considered pertinent to applicant's disclosure.
